DEPARTMENT OF INFORMATION TECHNOLOGY

KENNETH D. THEIS, DIRECTOR
Romney Building, 8th Floor

111 S. Capitol Avenue, Lansing, MI 48913 Phone: (517) 373-1006

The **Department of Information Technology** is responsible for the professional management of the state's technology resources. The department's nearly 1,700 employees lead efforts to create centralized policy and manage Michigan's technology projects and systems. By utilizing a unified, centralized approach, the department is able to manage technology initiatives for state executive departments and the citizens of Michigan.

The department has two primary areas of service — Agency Services and Infrastructure Services. Agency Services implements and oversees the technology initiatives of the individual executive branch agencies, manages the state's Internet presence, and also Geographical Information Services. Infrastructure Services is responsible for maintaining Michigan's vast technology structure — resources such as servers and networks, telecommunications, and the state's considerable desktop computer environment. In addition, the department is also responsible for the Michigan Public Safety Communications System and executive branch IT Security.

The Director of the Department of Information Technology serves as the state's Chief Information Officer.
